waterform

RAINDROP FOR BETTER TOMORROW

The new Waterform product line dedicated to environmental protection.

The rainwater tanks and the essential accessories have been designed with the environmental protection of our planet in mind.

The wide range of products focuses on storing rainwater in your own garden in the most efficient way possible, allowing you to fully independently water your garden with 100% rainwater.

With the Waterform products, watering flowers and vegetables will never be the same again as every drop collected during the rain will make our planet happier whenever there is a draught.

Waterform- Rain Drop for better tomorrow

Freze

FINEST QUALITY

	W	Ø	↓	l	pcs	pcs	h
RWW290	580	1205	290	1	8	~2,50 m	max.pal.
	431UG						

The cylindrical Freze tank holds 290 litres of rainwater. Its granite-like finish is a great aesthetic feature, and the form ensures high stiffness and durability. The material used for production is resistant to UV rays and low temperatures. The rainwater tank is equipped with brass threads, significantly improving the strength of the connection with the ITAP2 tap, which is included in the set. It is recommended to empty the water in the tanks during the winter period.

NEW

Tubo

FINEST QUALITY

	W	Ø	↓	l	pcs	pcs	h
RWT320	670	1505	320	1	8	~2,36 m	max.pal.
	431UG						

Tubo tank with a capacity of 320 litres in a conical shape is a trendy and functional rainwater tank that fits perfectly into modern garden arrangements. The high quality of the material, shape and increased stiffness of the product ensure resistance to most weather conditions. The tank is equipped with a pot insert and brass threads, improving the strength of the connection with the ITAP2 tap, which is included in the set. It is recommended to empty the water in the tanks during the winter period.

NEW

Tower

FINEST QUALITY

	W	←	↙	↓	l	pcs	pcs	h
RWK720	790	590	1800	720	1	2	~1,95 m	
	431UG							

The Tower tank holds 720 litres of rainwater. The finish of the tank resembles a plaster structure, so it easily adjusts to the facade of buildings. The shape of a block increases strength and stiffness and provides resistance to most weather conditions. The rainwater tank is equipped with brass threads, significantly improving the strength of the connection with the ITAP2 tap, which is included in the set. It is recommended to empty the water in the tanks during the winter period.

	mm	mm					
IDMZ240	593	1140	240	1	6	~2,32 m	~198
S443	S433						

The Maze rainwater tank, featuring an improved surface with gently waving horizontal grooves, is not only decorative in appearance, but is also functional. Its deep and capacious lid can be used as a floral bowl for your favourite perennials or herbs. The tank has a top opening with a cover, two points to attach a gutter drain tube, and two threaded holes for a tap or a quick release coupling for mounting a garden hose. If you would like to enjoy the full potential of the collected water, equip yourself with additional Waterform accessories.

ION310	680	680	1177	310	1	2 ~1,40 m 4 ~2,60 m	~66 ~132

S433

The shape of the Canyon water barrel is inspired by the design of the ancient amphora, while its colour and texture imitate stone. This makes Canyon not only a practical solution, but also a beautiful ornament for any garden. The tank is equipped with an upper opening with a lid and two threaded holes for taps or quick-disconnect garden hose. Our water barrels are the right choice for everybody wanting to look after the environment and live in peace with nature.
